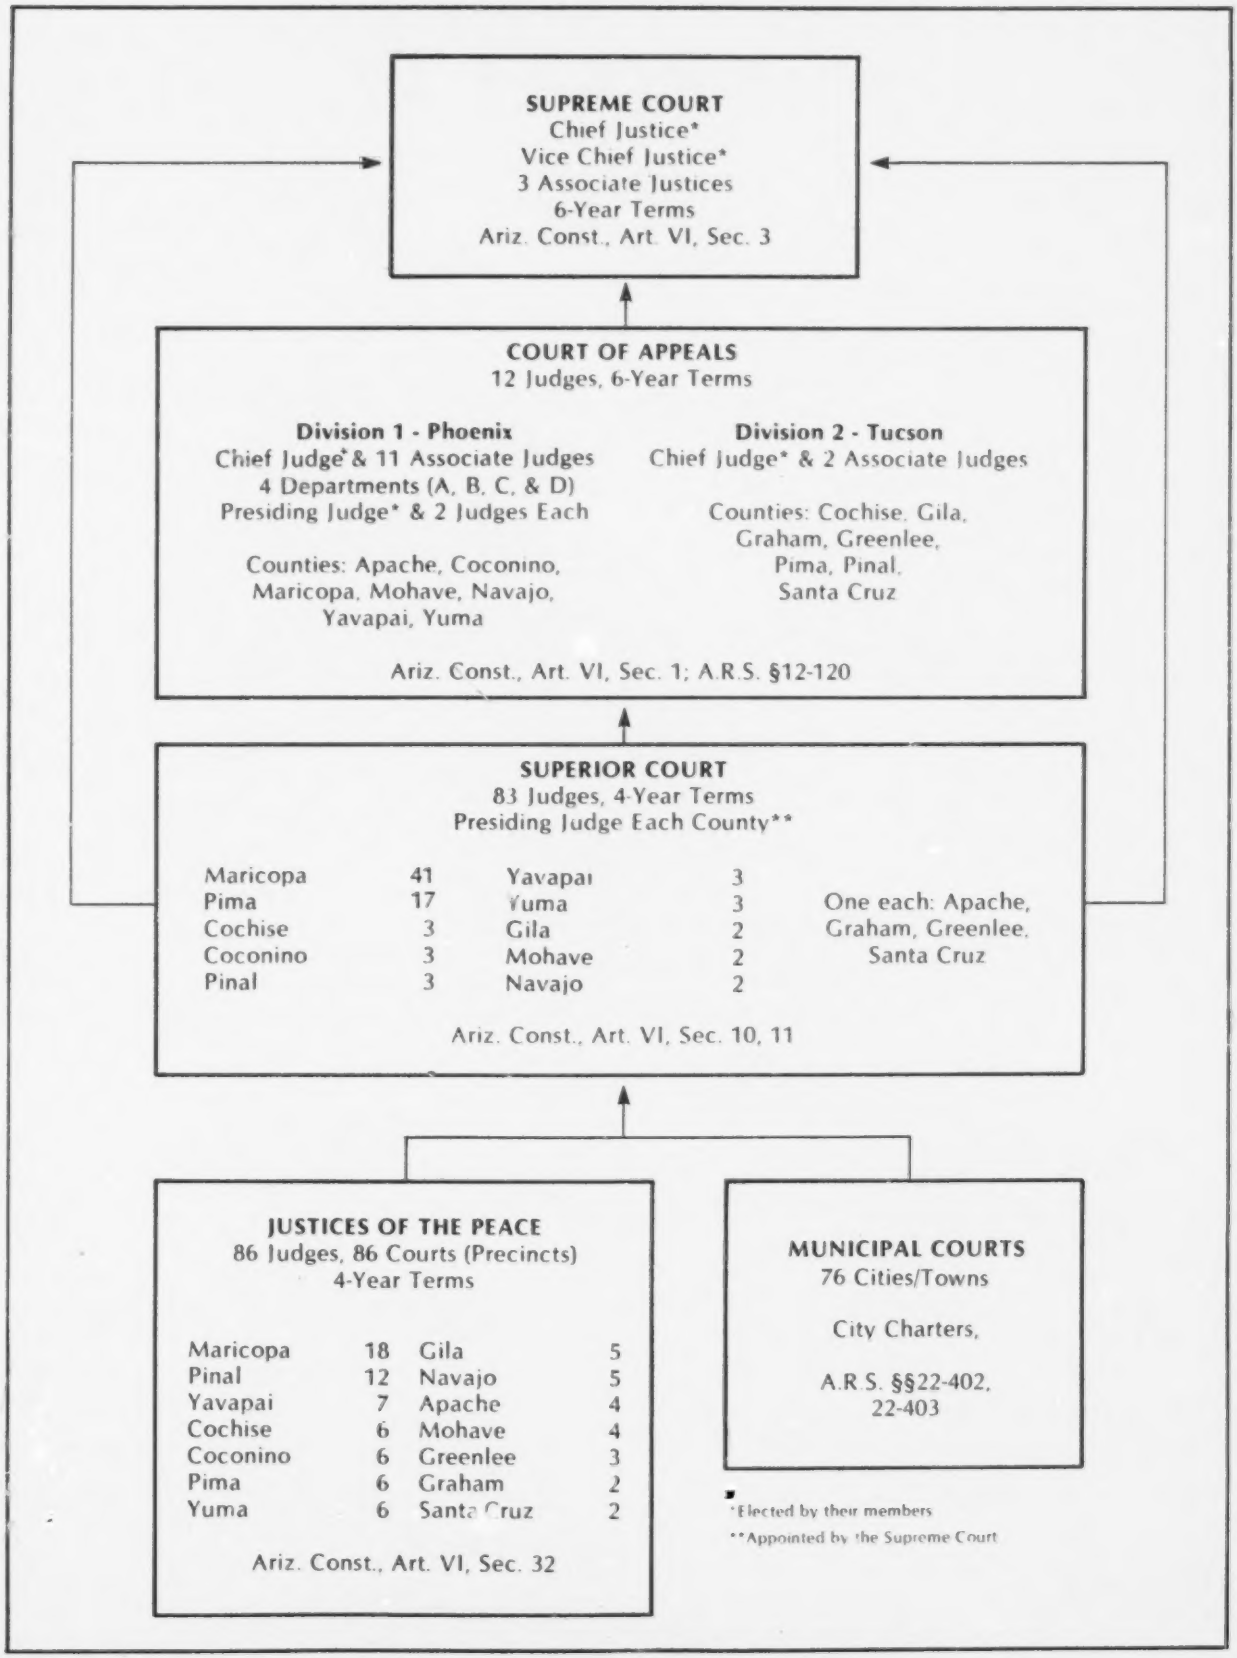
## ORGANIZATIONAL CHART—THE ARIZONA JUDICIARY



# The Judicial Branch of Government

> The judicial power shall be vested in an integrated judicial department consisting of a supreme court, such intermediate appellate courts as may be provided by law, a superior court, such courts inferior to the superior court as may be provided by law, and justice courts. Arizona Constitution, Article VI, Sec. 1

## THE SUPREME COURT

The Arizona Supreme Court consists of five justices. The regular term of office is six years. The Supreme Court has administrative supervision over all the courts of the state and the Chief Justice has the authority to exercise that supervision. The jurisdiction of the Court is provided in Article VI, Section 5 of the Arizona Constitution and includes appellate jurisdiction, the issuance of extraordinary writs and the power to make rules relative to all procedural matters in any court. Decisions of the Court of Appeals may be reviewed at the discretion of the Supreme Court when a litigant files a Petition for Review.

In addition to law clerks and secretarial and clerical staff, the Court appoints the Administrative Director of the Courts, the Clerk of the Supreme Court, and a central staff of attorneys. All employees serve at the pleasure of the Court.

## COURT OF APPEALS

The Court of Appeals consists of two divisions. Division One, with twelve judges, is located in Phoenix; Division Two, with three judges, sits in Tucson. The court has appellate jurisdiction to determine all matters properly appealed from the Superior Court. In criminal cases, however, where the sentence of death or life imprisonment has actually been imposed, the appeal is directly to the Arizona Supreme Court.

The geographical jurisdiction of Division One covers appeals from the Superior Court in the counties of Apache, Coconino, Maricopa, Mohave, Navajo, Yavapai, and Yuma. Absent a legislative announcement to the contrary, Division One plans to receive cases appealed from La Paz County when it is formed January 1, 1983. Division One also has statewide responsibility for reviewing decisions of the Industrial Commission and unemployment compensation appeals from the Department of Economic Security.

Division Two receives its cases from the Superior Court in the counties of Cochise, Gila, Graham, Greenlee, Pima, Pinal, and Santa Cruz.

## SUPERIOR COURT

At the close of 1982, the Superior Court consisted of 83 judges sitting in 14 counties. The Superior Court is a trial court of general jurisdiction and is empowered to hear cases of equity and law which involve title to or possession of real property; civil cases where the claim for relief amounts to $2,500 or more; felony prosecutions and misdemeanors not otherwise provided for by law; probate matters; and cases involving dissolution or annulment of marriage. The Superior Court has concurrent jurisdiction with the Justice of the Peace Court over civil claims between $500 and $2,500. It also has exclusive jurisdiction in juvenile matters.

In counties with three or more Superior Court judges, the presiding judge may appoint court commissioners to perform such duties as may be provided by law or Supreme Court rules. Commissioners usually determine matters where a default has been entered against a party and may also preside at the initial appearance of a defendant charged with a crime.

Each county has a Superior Court Clerk who is elected at the general election. The responsibilities of the Clerk's office are diversified and include the maintenance of official court case files; certification of documents; collection of fees; and issuance of summonses, subpoenas, and marriage licenses. The Clerk serves as jury commissioner in all counties except Maricopa and Pima; a separate jury commissioner is appointed in these two counties.

Adult and juvenile probation departments are also operated under the supervision of the Superior Court.

## JUSTICE OF THE PEACE AND MUNICIPAL COURTS

Statewide there are 86 justices of the peace sitting in the same number of precincts. These judges are elected at the general election by the voters in the precinct and their regular term of office is four years.

Municipal Courts are mandated by state law in each incorporated city or town; at the time of the 1982 personnel survey there were 76 such courts. Municipal judges are usually appointed by city or town councils.

These courts have jurisdiction to hear class 1, 2, and 3 misdemeanor cases. The justice of the peace may also conduct preliminary examinations on felony complaints. In addition, the Justice of the Peace Courts have civil jurisdiction over lawsuits involving less than $2,500. Municipal Courts are empowered to hear matters arising out of violations of city or town ordinances. Virtually all traffic violation cases are filed in the Justice of the Peace or Municipal Courts.

# General Introduction

For the fourth year, detailed caseload, financial, and personnel information is presented by the Arizona Supreme Court in this separate volume, The Arizona Courts: 1982 Caseload, Financial, and Personnel Report. This report provides both statewide summary and detailed individual court unit information. Its value as a supplement to the 1982 Annual Judicial Report is to persons and agencies who are interested in or involved with budgeting, planning, and administration for the court systems within Arizona.

This is the fifth year in which caseload statistical data has been published in the same format. It is, therefore, possible for courts to use caseload information from this and previous reports to determine short-term trends in their caseloads. Such information is of value when budgets are considered and in order to plan for the future needs of the court system.

## REPORT FORMAT

This report contains sections on: statewide summary information, appellate courts, superior courts, superior court probation, justice of the peace courts, municipal courts, and court receipts. For easy reference, each court section is indicated by the appropriate heading on the upper outside corner of the page.

The following introductory sections have been included to facilitate a better understanding of the data presented herein. These general statements are intended only as an overview of the data presented. Particular attention should be paid to the narrative statements and definitions at the beginning of each section and the footnotes applicable to various statistics.

## CASELOAD STATISTICS

The caseload statistics presented herein have been compiled from the monthly statistical reports submitted to the Supreme Court by the individual appellate, superior, justice of the peace, and municipal courts of the state. Virtually all caseload data reported herein is complete. Incomplete or inconsistent information, where detected, has been appropriately footnoted in the specific court report where the explanation is applicable. While the statistics are checked for mathematical accuracy, they are unaudited.

Justice of the peace and municipal court criminal statistics presented in this report reflect case "filings" while superior court figures reflect the number of "defendants" charged.

## FINANCIAL INFORMATION

The financial information for superior and justice courts which is published in this report is based on a survey of the courts conducted during October, 1982. Supreme Court personnel have worked to obtain the most complete and accurate information possible. However, the financial data presented herein is unaudited and, therefore, is dependent on the reporting accuracy of the counties participating in the survey. An effort was made to identify all costs of court operations where the cost is directly attributable to the individual court's budget.

Financial information for the municipal courts has been taken from published budget statements compiled by the Arizona League of Cities and Towns. Only total budget dollars appropriated and expended were available; therefore, these figures are not broken down into sub-categories.

The following definitions for the categories used in this report are included to provide a better understanding of the financial information presented.

DIRECT EXPENDITURES AND APPROPRIATIONS--those funds appropriated directly to the court by the immediate funding authority (appellate courts--state legislature; superior courts and justice courts--counties; municipal courts--cities and towns).

Personal Services - amounts for salaries and wages for all personnel.

Fringe Benefits - amounts for employer's cost of FICA, insurance, retirement contributions, etc.

Operating Expenses - amounts for utilities, telephone, postage, insurance, rent, building maintenance, office supplies, and office equipment maintenance.

Travel and Transportation - amounts for personnel mileage, per diem, and travel.

Professional Services - amounts for court reporter costs, juries, attorney fees for indigent defendants, and mental institution charges.

Capital Expenses - amounts for purchases valued at over $100.

INDIRECT EXPENDITURES AND APPROPRIATIONS--those expenses attributable to the court but which are

included in the budgets of other departments or agencies.

Fringe Benefits - amounts for employer's cost of FICA, insurance, and retirement contributions not directly budgeted to the court.

Support Services - amounts for data processing, maintenance, accounting, payroll, law library, and building repair not directly budgeted to the court.

FEDERAL FUNDS--amounts received through such sources as federal revenue sharing, anti-recession funding, LEAA grants, Title IV child support, etc.

## PERSONNEL INFORMATION

The personnel information contained in this report is based on a survey of the staffing levels of the Arizona judiciary on October 1, 1982. Because of the vast number of job titles encountered both within and between the different levels of courts, broad general position groupings were developed to publish the information in a reportable format. Personnel definitions which detail the various types of positions included within each grouping are noted at the beginning of each trial court section of this report.

# Statewide Personnel Information

The table below reflects a statewide summary of all court personnel as of October 1, 1982. This information was reported by the individual courts in response to a personnel survey conducted by the Supreme Court. Personnel information for individual courts can be found in the appropriate section of this report.

The 1982 survey attempted to obtain the most accurate information possible regarding the staffing levels of the various courts throughout Arizona. Therefore, personnel have been identified as being full-time (F.T.) or part-time (P.T.) employees in the table below.

The superior court employs approximately 67% of the full-time and 28% of the part-time court personnel within the Arizona judiciary. Justice courts and municipal courts each employ approximately 14% of the full-time court employees in the state. Appellate courts (Supreme Court and Court of Appeals) presently account for 5% of the workforce.

The total number of persons working full-time in the Arizona judicial system has increased from 2,647 in 1981 to 2,741 in 1982, a 3.5% increase.

# Statewide Judicial Expenditures

The financial information shown below reflects expenditures of the Arizona judiciary as identified by the financial survey of courts for fiscal year 1981-82. The table summarizes the statewide financial figures for the various courts in Arizona. Financial information for individual court units can be found in this report.

The pie charts below illustrate the expenditure percentages from the chart above. The chart on the left shows that during fiscal year 1981-82, 68.9% of the total expenditures for courts in Arizona were for services at the superior court level. This represents a slight decrease from the previous year when the superior court accounted for 70.3% of the statewide total. Municipal courts were responsible for 13.2% of the statewide judicial expenditures and 10.5% of the total was expended for justice courts. The state's appellate courts accounted for 7.4% of the statewide expenditures.

The pie chart on the right shows the source of the funds expended by the judiciary. The counties provide most of the funds to operate the state's courts, 73.6%. This percentage has decreased slightly from the 73.9% they provided during 1980-81. The state's contribution for funding the courts increased from 10.3% in 1980-81 to 10.7% in 1981-82. During 1981-82, federal funding provided only 2.5% of the identified statewide expenditures. This represents a decrease from its previous levels of 2.6% in 1980-81 and 4.5% in 1979-1980.

# Statewide Financial Information
# All Courts

The table below represents specific line item expenditures for fiscal year 1981-82 and appropriated monies for fiscal year 1982-83. This information was compiled from the Supreme Court's financial survey of the Arizona courts which was conducted in October, 1982. Definitions concerning the types of expenditures included in the categories can be found in the General Introduction to the Caseload, Financial, and Personnel Information section on page 4.

In order to accomodate comparisons, the statewide financial information is provided for each of the court levels comprising the Arizona judiciary. Figures for the municipal courts were obtained from the Arizona League of Cities and Towns and were available only as total expenditures and appropriations. These figures have been included in the personal services category.

Appropriation figures for the Supreme Court and the Court of Appeals are based on the original appropriations made by the 1982 Legislature. In early 1983, the Legislature reappropriated the state level budget at a reduced level. The Supreme Court budget level was reduced $138,500; the Foster Care Review Board budget was reduced $16,400; the Commission on Judicial Qualifications allocation was reduced $2,500; the budget for judicial nominating commissions was reduced $400; the Court of Appeals budget was reduced $151,600; and the superior court appropriation was reduced $43,900.

## CASE ACTIVITY

Case filings in the Supreme Court decreased slightly in 1982; 1,027 cases were filed in 1982 as opposed to 1,083 cases in 1981. This filing count was supplemented by the transfer of 35 cases from the Court of Appeals. During the year the Court was able to terminate a total of 1,037 cases. The total number of cases pending at year-end continued to increase, rising from 191 matters in 1981 to 220 matters at the end of 1982.

As shown in the pie chart, petitions for review constitute the largest percentage (57%) of the total number of cases filed in the Court during 1982. The remainder of the Court's caseload is divided among special actions, criminal cases, state bar matters, miscellaneous actions, and other cases.

In recent years the general trend of case filings in the Supreme Court has stabilized. However, during 1982, minor fluctuations occurred in some specific case categories within the total caseload. Habeas corpus petitions showed the most significant change by increasing 31.7% from 41 cases in 1981 to 54 cases in 1982. Special actions increased during the year from 177 cases filed in 1981 to 196 cases filed in 1982 (a 10.7% increase). Criminal and civil filings also increased slightly during the year.

The largest category of cases, petitions for review, reflected a decrease in filings of 3.8%, decreasing from 607 matters in 1981 to 584 matters in 1982. Other categories also reflected decreases during the year. Reductions occurred in State Bar disciplinary matters which decreased 43.8% from 89 filings in 1981 to 50 filings in 1982, and also in miscellaneous filings which declined from 118 filings in 1981 to 85 filings in 1982 (a 27.9% decrease).

## FINANCIAL INFORMATION

Financial administration of the Supreme Court's operating budget is the responsibility of the Office of the Administrative Director. In addition, the Administrative Director's Office fiscally administers state appropriations to provide for:

- One-half of all superior court judges' salaries and related costs
- Medical Liability Review Panels
- The Commissions on Appellate and Trial Court Appointments
- The Commission on Judicial Qualifications
- Family Counseling Programs
- The State Aid for Probation Services Program
- Foster Care Review Boards
- Judicial Education
- Judicial Assistance Requirements

# Court of Appeals - Division One

## CASE ACTIVITY

During 1982, Division One received a record number of case filings for the third consecutive year. A total of 1,791 new cases were filed with the court during the year. This represents a 4.13% increase in filings between 1981 and 1982. Case terminations also increased in 1982, rising 6% to a record 1,551 matters. This escalation was due at least in part to the creation of the division's fourth panel of judges. However, since the judges did not take office until July, 1982, the full impact of the new panel will not be apparent until 1983. The number of cases pending in the court at year-end grew 15.5% rising from 1,546 cases in 1981 to 1,786 cases in 1982.

In 1982, as in 1981, the most significant aspect of the overall increase in filings was the growth in criminal filings. Including criminal petitions for post-conviction relief, criminal filings increased from 756 matters in 1981 to 936 matters in 1982. This represents an increase of 23.8% in one year's time. The 1981 Annual Judicial Report noted that policy changes in County Attorneys' offices, full implementation of the revised criminal code, and increasing superior court criminal case terminations could have caused the increase in criminal appeals during that year. It would appear that during 1982, Division One continued to receive the impact of these and possibly other factors which have caused its criminal filings to increase 58.1% in two years.

For the first time in recent years, civil case filings decreased, falling 7.8% from 576 cases in 1981 to 531 cases in 1982. Industrial Commission case filings decreased slightly from 221 matters in 1981 to 212 matters in 1982. Unemployment insurance cases also declined, changing from 122 filings in 1981 to 55 filings in 1982. However, juvenile appeal filings rose from 15 cases in 1981 to 28 cases in 1982.

As mentioned above, a record number of case terminations occured during 1982. A total of 6% more cases were decided or disposed of in 1982 than in 1981. Terminations in the categories of criminal cases, petitions for post-conviction relief, and Industrial Commission cases all reported significant increases during the year. Criminal case terminations increased 23.3% from 544 cases in 1981 to 671 in 1982. Similarly, Industrial Commission appeals were terminated at a 31.4% higher rate in 1982 (230 cases) than in 1981 (175 cases). Terminations of petitions for post-conviction relief in criminal cases increased from 35 matters in 1981 to 64 matters in 1982. The number of civil cases closed decreased 3.4% from 503 terminations in 1981 to 486 terminations in 1982. Terminations also decreased in unemployment insurance appeals from 158 terminations in 1981 to 54 terminations in 1982.

As shown in the Total Filing and Termination Activity chart and graph, the year-end pending total for the court jumped 15.5% from 1,546 cases in 1981 to 1,786 cases in 1982. This increase in year-end pending is partially attributable to the increase in criminal filings.

# Court of Appeals - Division Two

## CASE ACTIVITY

Case filings in Division Two of the Court of Appeals increased to a record level during 1982. The court received 821 new cases which is a 14.7% increase over 1981 when 716 cases were received. The total number of cases terminated by the court also grew, rising from 675 terminations in 1981 to 721 terminations in 1982 (a 6.8% increase). However, as a result of the rapid rise in new case filings, the court's year-end pending caseload increased from 329 cases in 1981 to 429 cases in 1982.

During 1982, large filing increases occurred in several case categories. Criminal cases showed the most significant increase in filings, rising 29.4% from 286 cases filed in 1981 to 370 cases filed in 1982. Special action filings also reflected an increase from 131 matters filed in 1981 to 171 cases in 1982. A decrease in civil filings was reported during the year. In 1982, 211 civil filings were received in comparison with 246 in 1981 (a 14.2% decrease).

Civil and criminal case terminations were relatively unchanged with civil reflecting a .9% decrease and criminal a 1.5% increase. Other areas, however, reported sizeable increases; these were led by juvenile terminations which were up 40% (28 in 1982 versus 20 in 1981), and special action terminations which were up 23.1% (165 in 1982 versus 134 in 1981).

The year-end pending total increased significantly from 329 matters in 1981 to 429 matters in 1982; this represents a 30.4% increase in pending cases for the year. Criminal cases reported the largest numeric increase rising 54.2% from 177 pending cases in 1981 to 273 pending cases in 1982. The dramatic increase in the court's year-end pending caseload deserves future attention since it may indicate that the court has reached the point where it cannot adequately deal with its rising caseload. Additional personnel and automated equipment may be necessary to prevent an unacceptable backlog from developing.

## CASELOAD STATISTICS

### INTRODUCTION

The caseload statistics contained on the following pages are based on the case activity data reported monthly by each superior court to the Arizona Supreme Court. The statistics are presented on both an individual county basis and a statewide summary basis, by county and by case type. Although most court caseload statistics reported herein are complete, some statistical information was not available for reporting purposes. Such omissions are noted on the applicable charts.

This 1982 report represents the fifth year in which the current superior court statistical reporting forms have been used by the Supreme Court. The use of these forms has resulted in more uniform and detailed caseload data than was available prior to 1978. This consistency in the data makes it possible to analyze the recent caseload trends in the superior court.

Both the superior court and the superior court probation department in each county have reported statistics on the disposition of criminal defendants who were found guilty. These two sets of figures do not coincide. Some of the variance is related to the fact that the probation department only keeps sentencing statistics on those individuals who are referred to the probation department prior to sentencing. Since not all defendants who are sentenced by the superior court are referred to the probation department prior to sentencing, the number of offenders actually sentenced may be greater than the number reported by the probation department.

The case activity charts on the following pages contain categories entitled "transferred in" and "transfer out". Although these categories are included primarily to report the actual transfer of cases or defendants between counties, the categories may also be employed to accomplish statistical adjustments of discovered reporting inaccuracies. These inaccuracies are usually detected by court personnel during physical inventories of pending caseloads. In instances where physical inventory adjustments are made, the total yearly adjustments have been published as reported.

As in past years, the only major omissions in the 1982 caseload statistics are the adoption and juvenile dependency filing statistics from the Maricopa Superior Court. That court was able to provide termination statistics for these categories and these numbers have been footnoted on the appropriate charts. However, since complete caseflow statistics were not available, the Maricopa figures have not been included in any statewide summaries or totals. Due to the size of the Maricopa caseload, these omissions have a significant impact on the statistical categories.

### 1982 Caseload Activity

The superior court reported a slight increase in filings for 1982. Total filings throughout the state increased 0.02% from 98,092 filings in 1981 to 98,110 filings in 1982. The superior court was able to increase the total number of terminations 1.2% from 96,981 cases in 1981 to 98,138 cases in 1982. Despite the increase in terminations, the year-end pending caseload increased 1.7%, rising from 96,890 cases in 1981 to 98,569 cases in 1982. These figures do not take into account the various pre- and post-judgment matters which are also processed by the superior court and are reported on page 37.

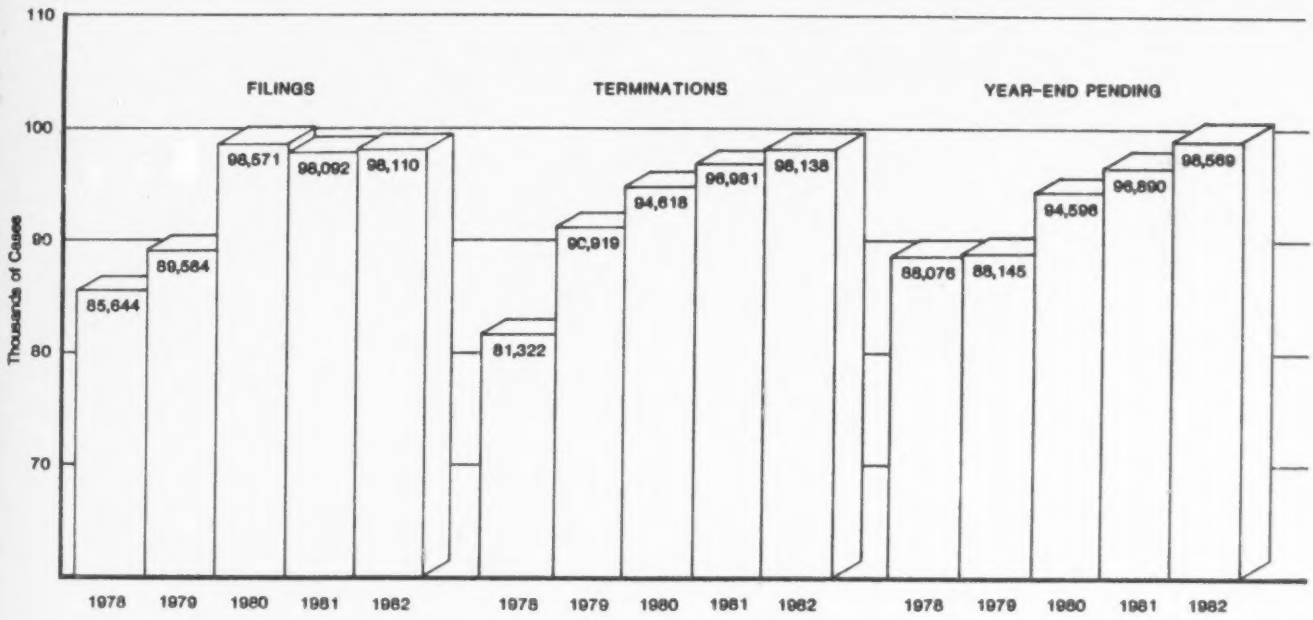
Since this is the fifth year in which superior court caseload statistics have been collected in their current format, short-term trends, such as those illustrated in the bar graphs, can be identified. Filings increased markedly during 1978, 1979, and 1980, but have stabilized in 1981 and 1982. The 1982 total filing figure of 98,110 cases represents a 14.6% growth in filing activity over the five-year period. There has also been a 20.7% rise in the overall number of terminations in the five years from 81,322 terminations in 1978 to 98,138 terminations in 1982. Year-end pending counts have increased significantly during the same time period rising from 88,076 in 1978 to 98,569 in 1982, an 11.9% increase.

During 1982, the largest change in terms of overall case volume was in the area of civil case filings. There was a 9.1% increase in civil filings, rising from 35,162 matters in 1981 to 38,371 matters in 1982. The court was able to terminate a total of 38,814 civil cases in 1982 which was an 8.6% increase over the 35,750 cases closed in 1981. The year-end pending caseload increased only slightly, 1.2%, from 35,329 cases in 1981 to 35,764 in 1982.

Statewide statistics reflect a 3.1% growth in criminal filings during 1982 as compared with 1981 (16,219 filings in 1981 versus 16,724 filings in 1982). However, the number of criminal case terminations decreased slightly from 17,313 cases in 1981 to 16,874 cases in 1982, a decrease of 2.5%. Pending criminal cases at year-end increased slightly from 7,366 cases pending at the end of 1981 to 7,391 cases pending at the end of 1982.

Domestic relations case filings fell during the year, decreasing 8.7% from the previous year (28,023 filings in 1981 compared with 25,573 filings in 1982). Terminations also declined, decreasing 3.6% from 27,524 cases in 1981 to 26,536 cases in 1982. Despite this decrease in terminations, the year-end pending count decreased at a rate of 5.8% over the previous year falling from 14,600 pending cases to 13,749 pending cases.

Superior Court Activity
1978 to 1982



Reciprocal support filings decreased significantly from 7,848 matters in 1981 to 6,924 matters in 1982, an 11.8% decline. There was also a slight decrease in the number of reciprocal support cases terminated during the year; 7,279 cases were closed in 1982 which is a 2% decrease from the 7,424 cases closed in 1981. The year-end pending count, however, reported a marginal increase of 0.4% rising from 8,372 matters pending in 1981 to 8,409 matters pending in 1982.

Due to the length of their processing time, probate cases continued to increase in the year-end pending category from 28,288 matters in 1981 to 30,223 matters in 1982 (a 6.8% increase). Total probate terminations accounted for only 6,674 matters during the year. In the past five years there has only been one year in which probate terminations exceeded 10,000 cases; that was 1979. It appears that it is time for the superior court to take note of this "pending" caseload and cull the inactive or outdated cases.

The superior court in Arizona handled a widely diverse caseload during 1982. As shown in the pie chart, the largest category of cases filed with the court was civil cases, representing over one-third of all cases filed. The civil case share of 39.1% of all cases filed represents an increase from 35.8% of all cases filed in 1981. Domestic relations cases constitute the second largest case category with 26.1% of the total caseload. Criminal cases comprised 17% of the filings, while the remaining types of cases represent the final 17.8% of the case filings in the court.

## Caseload Statistical Definitions

The following definitions are included to afford the reader a better understanding of what the statistical data reported represents. Civil, domestic relations, and all other non-criminal statistics reflect the number of cases. Criminal statistics reflect the number of defendants named in complaints, informations, and/or indictments.

### Case Categories

CIVIL - Tort Motor Vehicle, Tort Non-Motor, Medical Malpractice, Contract, Eminent Domain, Lower Court Civil Appeals, and Non-Classified Civil cases.

DOMESTIC RELATIONS - Paternity, Maternity, Dissolution, Annulment, Legal Separation, County Attorney Petitions to Establish Support, and other custody proceedings.

PROBATE - Estate Probate, Trust Administration, Guardianship, and Conservatorship cases.

ADOPTION - Petitions for the adoption of a minor.

JUVENILE DEPENDENCY - Petitions to declare a juvenile to be a dependent or neglected child.

FELONY - Defendants in criminal cases who are charged with a felony. Criminal statistics for superior court represent numbers of defendants, not cases.

MISDEMEANOR - Defendants in criminal cases who are charged with a misdemeanor offense.

UNCLASSIFIED - Defendants in criminal cases who are charged with an offense which does not come under any of the other criminal case categories listed, e.g., peace bond complaints.

LOWER COURT APPEAL - The number of civil cases appealed, or defendants in criminal cases who appeal a decision rendered in a city court or a justice of the peace court.

TRIAL DE NOVO - A new trial as a result of a lower court appeal in which the entire case is retried.

ON THE RECORD - An appeal of a lower court decision, in which legal issues are reviewed by inspection and examination of the record of the lower court proceedings.

### Case Activity

CASES TRANSFERRED IN - The number of cases (defendants in criminal cases) transferred in from the superior court in another county. Cases in which a motion for new trial has been granted or a remand from an appellate court has been ordered are also included in this category, as well as statistical adjustments to correct discovered inaccuracies.

WITH PLEA - The number of defendants in criminal cases who enter a plea of guilty or nolo contendere prior to the commencement of a trial.

TRIAL IN PROCESS - The number of cases (defendants in criminal cases) terminated during, but prior to the completion of, a trial. For purposes of this report, a trial commences when the first witness is sworn.

COURT TRIAL - The number of cases (defendants in criminal cases) terminated following the completion of a trial without a jury.

JURY TRIAL - The number of cases (defendants in criminal cases) terminated following the completion of a jury trial.

AFFIRMED - Superior court ruling on a lower court appeal on the record in which the decision of the lower court is upheld.

REVERSED - Superior court ruling on a lower court appeal on the record in which the decision of the lower court is reversed.

ARBITRATION - The number of civil cases terminated by arbitration, pursuant to Arizona Revised Statutes §12-133. Arbitration cases that are appealed to the superior court are not included in this termination category.

MEDICAL MALPRACTICE PANELS - The number of civil medical malpractice cases concluded by medical liability review panels. Cases in which the parties proceed with court litigation are not included in this category.

## FINANCIAL INFORMATION

The financial information contained in this section of the report is based on the results of a detailed survey obtained from the superior court in each county. Statewide superior court summary information is contained in four tables which appear on the following pages. The tables separate actual expenditures made during fiscal year 1981-82 from the budgeted amounts appropriated for fiscal year 1982-83 for both the court and the clerk of court. Financial information for the probation department of the superior court appears in the probation section of this report.

## PERSONNEL INFORMATION

The personnel information presented is based on responses to a personnel survey conducted by the Arizona Supreme Court in the fall, 1982.

As a result of the variety and number of job titles encountered in compiling this information, general position groupings were developed. In the personnel summary charts, full-time positions are referred to as F.T. and part-time as P.T.

The general position groupings which were developed for summarizing all superior court and clerk of court positions are listed below. # Superior Court Probation

The information contained in this section of the annual report is based on monthly reports submitted by superior court probation departments to the Arizona Supreme Court.

## PROBATION ACTIVITY, 1982

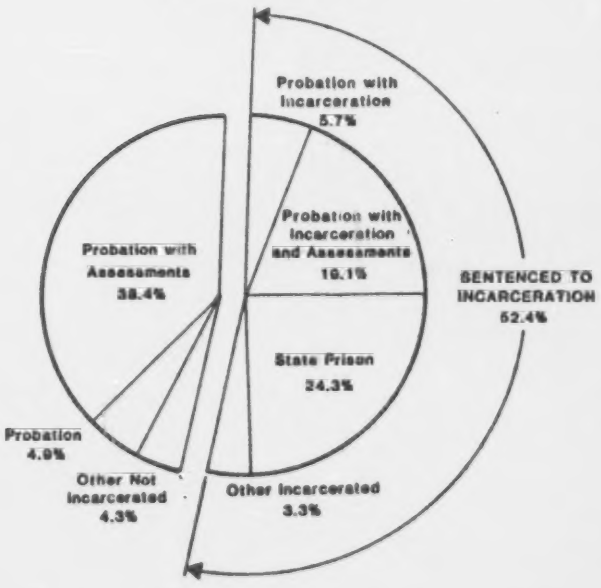
### Adult

During 1982, a total of 9,796 written presentence reports were completed by probation departments in the state. As shown in the flow chart on page 77, a total of 6,526 individuals were placed on probation during the year which, when added to the 13,432 adults already on probation, totals to 19,958 persons supervised by probation departments in 1982. Of that total, 831 probationers had their probation revoked and were sentenced to either county jail or the State Department of Corrections. A total of 1,744 probationers completed their term of probation during 1982, and 2,434 probationers received early terminations during the year.

A total of 9,796 adults were referred to probation departments for presentence reports. This represents a 10.6% increase over the 8,859 offenders referred during 1981. A decrease of 6.9% occurred in the number of offenders placed on probation by the superior court, 7,009 in 1981 versus 6,526 in 1982.

As illustrated in the pie chart, 52.4% of those offenders referred to the probation department prior to sentencing during 1982 received a sentence requiring incarceration. This represents a decrease from the 1981 figures when 61.4% received some type of incarceration in their sentence. In 1982, sentences of probation with either financial or public work service assessments increased substantially rising from 23.3% of the total in 1981 to 38.4% of the total in 1982. The state prison portion of the pie chart reflects 2,234 adult offenders who were sentenced to prison and 16 individuals sentenced to death.

**Sentences of Adults Referred to Probation Departments Prior to Sentencing**



During 1982 probationers provided in excess of $3,000,000 to the community through restitution, reimbursement, fines, and fees. This represents a 37.2% increase over the amount collected during 1981. This figure includes $523,343 in probation fees. Pursuant to A.R.S. §13-901, individuals placed on probation after July 25, 1981, shall, if found able by the superior court, pay a fee which is deposited in the probation services fund. In addition to the money collected, 86,710 hours of public work service were provided by probationers, an increase of 53.5% over the 1981 figure.

Sentencing statistics are provided to the Supreme Court by both the probation department and the superior court in each county. These two sets of figures do not coincide. Some of the variance is related to the fact that the probation department keeps sentencing statistics only on those individuals who are referred to the probation department prior to sentencing. Since not all defendants who are sentenced by the superior court are referred to the probation department prior to sentencing, the number of offenders actually sentenced may be greater than the number reported by the probation department.

It should be noted that the Pima County Adult Probation Department provided probation services to the Tucson Municipal Court on a contractual basis and provided limited services to the Pima County Consolidated Justice Courts. On December 31, 1982, the lower court probation caseload consisted of 831 persons. A total of 141 presentence reports were provided to the municipal and justice courts during 1982. Since the Pima County Adult Probation Department is the only department in the state which reports statistical information for the municipal and justice courts, this information has **not** been included in the statistical charts.

### Juvenile

During 1982 the juvenile probation departments received 35,628 new referrals on juveniles alleged to be delinquent or incorrigible. In addition, there were 4,547 referrals pending at the beginning of the year. Thus, there was a total of 40,175 referrals to be handled by the juvenile probation departments during 1982. This total does not include referrals for minor traffic offenses.

The flow chart shown on page 79 illustrates the general movement of a case as it goes through the juvenile justice system. It shows that the vast majority (59.7%) of the 40,175 referrals were adjusted and no petition was filed. As indicated on the flow chart, referrals are tallied as "paper" counts; it is possible for a juvenile to have more than one referral filed against him.

The next section of the flow chart deals with individual children. It shows the number of juveniles who have petitions filed and the subsequent method of termination of those petitions. A total of 9,702 children had petitions filed in 1982. Of that total, 6,027 were adjudicated delinquent or incorrigible. In 1982, dispositions were entered for 5,554 children. This figure does not match the number of children adjudicated, possibly because of the delay in disposition due to predisposition investigations and reports. The final series of boxes on the flow chart reflects the total number of children under supervision by juvenile probation departments in the state. During the year, 3,371 children were placed on probation. Added to the number of children already on probation, juvenile probation departments supervised 6,736 probationers during the year.

The first bar chart shows that most juvenile referrals (51%) were for crimes against property. The second bar chart reflects action taken on the 36,303 referrals actually processed by the juvenile court during the year. As mentioned previously, the majority of the referrals, 59.7%, were adjusted by the court. When a case is adjusted, counseling and other support services are often provided to the juveniles and their parents through the probation department. Of the remaining cases, 24.5% resulted in a petition being filed, and 6.2% were transferred to another court.

As a result of the referrals which ended in petitions being filed, 5,554 children received one of the following dispositions from the court: probation (47.5%); probation with a special condition that monetary restitution be provided (13.1%); continuation on an existing grant of probation (15.9%); commitment to the State Department of Corrections (10.7%); or a disposition that did not involve probation or confinement (12.7%).

On December 31, 1982, the juvenile probation departments in the state were supervising 3,654 juveniles on probation to the court. Based on the figures reported, this is an increase of 8.6% (289 juveniles) between January 1, 1982 and December 31, 1982.

Juveniles supervised by probation departments during 1982 provided $230,442 in restitution, reimbursement, and penalties. This is a 5.0% decrease from the amount collected during 1981. The number of hours of public work service provided by juveniles increased by 75.5%, rising from 29,499 hours in 1981 to 51,776 hours in 1982.

## FINANCIAL INFORMATION

The financial information contained in this section of the report is based on the results of a detailed survey obtained from the superior court in each county. Statewide superior court probation financial information is presented in four tables which appear on the following pages. The tables separate actual expenditures made during fiscal year 1981-82 from the budgeted amounts appropriated for fiscal year 1982-83 for both adult and juvenile probation departments.

## PERSONNEL INFORMATION

The personnel information presented here is based on responses to a personnel survey conducted by the Arizona Supreme Court in the fall, 1982. As a result of the variety and number of job titles encountered in compiling this information, general position groupings were developed. In the personnel summary charts, full-time positions are referred to as F.T. and part-time as P.T.

The general position groupings which were developed for summarizing all superior court probation positions are listed below. Additional personnel information for the superior court can be found in the superior court section of this report. Positions are shown on the chart for the department which budgets the individual's salary. For example, juvenile court judges are paid from the superior court budget, but juvenile court referees are paid from the juvenile probation budget.

# Justice of the Peace Courts

## CASELOAD STATISTICS

### General

The 1982 caseload statistics contained in this section of the report are based on the monthly statistical reports submitted to the Supreme Court by the justice courts. This is the first full year that justice of the peace criminal statistics have been based on case filings rather than on the number of defendants as was done in prior years. As a result of the passage of A.R.S. §22-125, the justice of the peace salary legislation, in 1981 it was necessary to convert the Supreme Court's statistical reports to reflect the number of criminal, misdemeanor, and traffic cases filed rather than the number of defendants charged.

The monthly statistical report forms and caseload statistical tables in this report include categories entitled "transferred in" and "transferred out." Although these categories are included primarily to report the actual transfer of cases from one court to another, the categories may also be employed to make statistical adjustments of discovered reporting inaccuracies. Such inaccuracies are usually detected either during physical inventories of pending caseloads by court personnel or by staff of the Administrative Director's Office during routine monitoring of the monthly reports.

For some courts, physical inventories of pending caseloads resulted in statistical adjustments being made in both the transferred in and transferred out categories within the same case category. Where possible, such adjustments have been offset against each other, with the offsetting difference reported either as transferred in or transferred out.

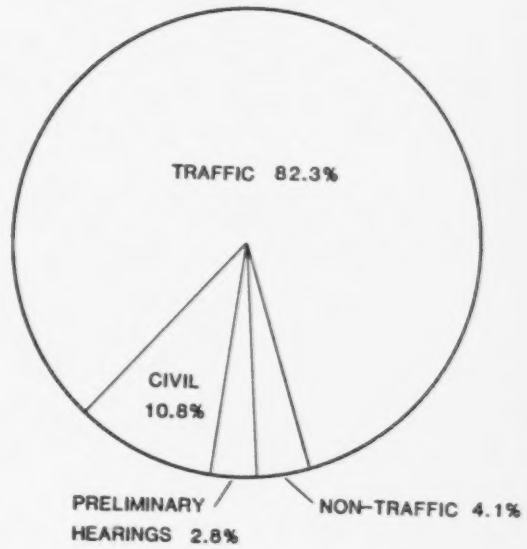
In order to provide more meaningful statistical analysis, comparison figures for 1981 have been updated from those printed in the 1981 Annual Judicial Report so as to include statistics for courts whose monthly reports were not received in time for the 1981 publication.

### 1982 Caseload Activity

During 1982, justice court case filings grew at a rate of 9.8% from a total of 577,226 filings in 1981 to 633,979 filings in the recently completed year. Terminations also increased rising from 544,076 closures in 1981 to 596,637 closures in 1982, a 9.7% increase. As a result of the growth of reported filings and despite the increase in terminations, the total number of cases pending at the end of the year soared 22.4%, going from 241,295 cases pending January 1, 1982, to 295,233 cases pending at the end of 1982.

As shown in the pie chart, the great majority of filings (83.2%) in justice courts relate to misdemeanor traffic complaints. Civil cases comprise 9.9% of the filings, preliminary hearings 3.3%, and non-traffic misdemeanor cases 3.6%.

Justice of the Peace Court
Filings 1982



Traffic filings increased 8.7% from 480,232 filings in 1981 to 521,945 filings in 1982. Similarly, traffic terminations increased statewide in 1982, rising to 496,248 dispositions, an increase of 8.9% over the 455,693 dispositions reported in 1981. Pending figures for traffic cases rose 21.2% from 185,235 cases on January 1, 1982, to 224,543 cases on December 31, 1982. Of the total number of traffic cases pending at the end of 1982, 68,960 were reported to be pending with warrants issued.

Driving while intoxicated (DWI) violations received considerable attention during the year. The Thirty-Fifth Legislature revised the DWI statutes to provide "tougher" sentences for those convicted. In 1982, a total of 17,654 DWI filings were made in justice courts. This is an increase of 17% over the 15,081 DWI filings made in 1981. Assuming that the upward trend in DWI filings continues as it has during the past five years, in 1985 there will be 22,600 DWI filings made annually in the Arizona justice courts.

In 1982 statewide justice court civil filings totaled 68,291 which was an increase of 19.7% over the 1981 reported filing level of 57,069. Civil dispositions also grew signif-

icantly, rising from 50,588 terminations in 1981 to 58,873 terminations in 1982, an increase of 16.4%. The pending civil caseload at the end of 1982 reflected an increase of 26.2% over the beginning of the year (38,713 pending on January 1, 1982, as compared with 48,869 pending on December 31, 1982).

Non-traffic misdemeanor filings grew at a rate of 22.4% during the year. Terminations also increased, rising 20.6% from 19,387 closures in 1981 to 23,376 closures in 1982. As a result of the large increase in filings, the number of year-end pending cases increased a significant 31.5% from 11,626 on January 1, 1982, to 15,285 matters on December 31, 1982. Of the total number of non-traffic misdemeanors reported pending at the end of 1982, 4,444 were reported as pending with warrants issued.

In Arizona, preliminary hearings for felony defendants are usually held in the justice courts. The number of felony complaints filed statewide in 1982 decreased 4.8% from 18,854 filings in 1981 to 17,954 filings in 1982. Terminations of these matters also decreased, changing from 18,408 closures in 1981 to 18,140 closures in 1982, or a decrease of 1.5%. Cases pending at year-end increased 14.2% going from 5,721 matters on January 1, 1982 to 6,536 matters on December 31, 1982. Of the cases pending at year-end, 4,142 (63.4%) represent cases with warrants outstanding.

## Caseload Statistical Definitions

The following definitions are included to provide the reader with a better understanding of what the caseload statistical data represents. For all case categories, the statistical data reflects the number of case filings for the year.

### Case Categories

CIVIL - A lawsuit in which the claim is less than $2,500. Also included are forcible entry and detainer actions (recovery of leased or rented property) providing the rental value does not exceed $500 per month and damages sought are less than $1,000.

MISDEMEANOR--TRAFFIC - Includes traffic violations contained in Title 28 of the Arizona Revised Statutes including driving while intoxicated, reckless driving, and other moving violations. Traffic statistics also include all violations of Arizona Corporation Commission Motor Carrier Rules and Regulations.

MISDEMEANOR--NON-TRAFFIC - All other misdemeanors where the law provides for punishment that does not exceed six months incarceration and/or a fine of up to $1,000.

PRELIMINARY HEARINGS - A hearing to determine whether the defendant should be held for trial in the superior court on a felony complaint.

### Case Activity

TRANSFERRED IN - The number of cases transferred in from other justice of the peace precincts. Also includes statistical adjustments to correct discovered inaccuracies and inventory adjustments.

TRANSFERRED OUT - The number of cases transferred out to other precincts. Also includes statistical adjustments to correct discovered inaccuracies and inventory adjustments.

WITHOUT TRIAL - The number of cases terminated without a trial including: dismissals by the judge, summary judgments, and dismissals by the plaintiff or by stipulation of the parties involved.

PLEAS AND/OR BOND FORFEITURE - The number of cases terminated after the acceptance of a guilty or no contest plea to the original charge, and the number of cases in which a posted bond was forfeited.

OUT OF JURISDICTION - For statistical reporting purposes only, includes the number of cases in which defendants are believed to be physically outside the court's jurisdiction and no arrest warrant has been issued.

## FINANCIAL INFORMATION

The financial information contained in this section of the report is based on the results of a detailed financial survey obtained from the justice courts. Actual expenditures made during fiscal year 1981-82 are presented separately from the budgets appropriated for the courts for fiscal year 1982-83.

Included in the General Introduction on page 4 is a brief explanation related to the overall financial information contained in the report and definitions as to what the financial categories presented include.

## PERSONNEL INFORMATION

The personnel information presented here is based on responses to a personnel survey conducted by the Arizona Supreme Court in the fall, 1982. As a result of the variety and number of job titles encountered in compiling this information, the following general position groupings have been established for purposes of this report:

Judge
Constable
Administrative Staff
Support Staff
Secretary/Clerical

Since little, if any, statewide uniformity appears to exist in regard to position titles and corresponding work-related responsibilities, for purposes of this report, positions have been grouped together solely on the basis of position titles.

The following position titles are included in the "Administrative Staff" category:

Administrative Assistant
Courts Administrator

The following position titles are included in the "Support Staff" category:

Accountant
Court Records Supervisor
Court Reporter
Custodian
Interpreter
Janitor
Justice Court Supervisor
Office Manager
Office Supervisor
Probation Officer
Process Server

The following position titles are included in the "Secretary/Clerical" category:

Clerk/Interpreter
Clerk/Typist
Court Clerk
Court Records Technician

# Municipal Courts

## CASELOAD STATISTICS

### General

The caseload statistics contained in this section of the annual report are based on the monthly statistical reports submitted to the Supreme Court by the municipal courts. This is the fifth year that municipal court statistics have been available to the Supreme Court on a statewide basis, and the first full year that municipal court statistics have been based on case counts rather than defendant counts. In 1981 the municipal court statistical reports were changed to reflect case counts and thus coincide with the justice court statistics. This provides a uniform method of counting limited jurisdiction court statistics and permits statistical comparisons between court units.

One court did not report complete statistics for 1982. December figures for Chino Valley City Court in Yavapai County are not included in the yearly totals.

In order to provide more meaningful statistical analysis, comparison figures from the 1981 Annual Judicial Report have been updated to include figures for courts whose monthly statistical reports were not received in time for the 1981 publication.

Both the monthly statistical reporting forms and the caseload statistical tables in this report include categories entitled "transferred in" and "transferred out." Although these categories are included primarily to report the actual transfer of cases or defendants between courts, the categories may also be employed to make statistical adjustments of discovered reporting inaccuracies. Such inaccuracies are usually detected either during physical inventories of pending caseloads by court personnel or by staff of the Administrative Director's Office during routine monitoring of the monthly reports.

For some courts, physical inventories of pending caseloads resulted in statistical adjustments being made in both the transferred in and transferred out categories within the same case category. Where possible, such adjustments have been offset against each other with the offsetting difference reported either as transferred in or transferred out.

### 1982 Caseload Activity

In 1982, there were 815,351 filings reported in the municipal courts. This figure represents an increase of 8.4% over the 752,386 filings in 1981. Municipal court terminations increased significantly during the year, rising 13.6% from 692,451 in 1981 to 786,954 terminations in 1982. At the end of 1982, there were 411,891 cases pending statewide; this represents an increase of 8% from the 381,334 cases pending at the beginning of 1982.

Traffic filings increased from 660,920 matters filed in 1981 to 690,335 in 1982 (a 4.4% rise). Terminations increased at a rate of 11%, rising from 619,756 terminations in 1981 to 688,300 terminations in 1982. The number of cases pending at the end of 1982 (307,071) reflected a 1.2% increase over the total number of pending matters at the beginning of the year (303,372). In 1982, of the 307,071 traffic cases reported pending at the end of the year, 102,701 were reported as pending with warrants issued.

As mentioned in the justice court section, driving while intoxicated (DWI) violations received considerable attention in the state during 1982. Municipal courts received 32,022 DWI filings during the year. This represents a 5.4% increase over the 30,380 DWI filings received in 1981.

Non-traffic misdemeanor filings reported a sizable increase (36.7%) over the previous year. In 1981 a total of 91,466 filings were received in municipal courts compared with 125,016 filings in 1982. Terminations increased similarly, rising from 72,695 in 1981 to 98,654 terminations in 1982, a 35.7% increase. The year-end pending count for non-traffic misdemeanors reflected a 34.4% increase in cases, growing from 77,962 at the beginning of the year to 104,820 on December 31, 1982. There were 22,793 non-traffic misdemeanor cases with warrants issued included in the 104,820 cases pending at the end of 1982.

### Caseload Statistical Definitions

The following statistical definitions are included to provide a better understanding of what the caseload data reported represents. The statistical data reflects the number of case filings for the year.

#### Case Categories

MISDEMEANOR--TRAFFIC - Includes traffic violations contained in Title 28 of the Arizona Revised Statutes, including driving while intoxicated, reckless driving while intoxicated, reckless driving, and other moving violations. Also included are violations of Arizona Corporation Commission Motor Carrier Rules and Regulations.

MISDEMEANOR--NON-TRAFFIC - All other misdemeanors where the law provides for punishment that does not exceed six months' incarceration and/or a fine of up to $1,000.

**Case Activity**

TRANSFERRED IN - The number of cases transferred in from other municipal courts. Also includes statistical adjustments to correct discovered inaccuracies and inventory adjustments.

TRANSFERRED OUT - The number of cases transferred out to other municipal courts. Also includes statistical adjustments to correct discovered inaccuracies and inventory adjustments.

## FINANCIAL INFORMATION

The municipal courts' financial information has been taken from published budget statements compiled by the Arizona League of Cities and Towns. Only total budget figures were available.

## PERSONNEL INFORMATION

# Court Receipts

The following section lists the total amount of fines, fees, forfeitures and surcharges reported as collected by the various courts throughout the state of Arizona during fiscal year 1981-82. The amounts reported are unaudited.

Appellate court revenues consist primarily of filing fees. Fees are collected by the Supreme Court pursuant to Arizona Revised Statutes §12-321 and §12-120.32 and by the Court of Appeals pursuant to A.R.S. §12-120.31. The Supreme Court also collects fees as authorized under A.R.S. §12-323 for certificates of admission to the State Bar and for certified copies of records.

The Superior Court is authorized under A.R.S. §§12-311 through -313 to assess various fees for civil actions taken, and pursuant to A.R.S. §§13-801 to -804 to collect criminal fines imposed by the courts. The clerk of the superior court is charged in A.R.S. §11-554 with the duty of collecting fees for court and court-related actions (marriage licenses, filing of papers, etc.). Additionally, A.R.S. §§25-303 and -311.01 charge the clerk with the collection of fees for annulment and dissolution of marriage filings, and A.R.S. § 22-283 provides for fees for civil appeals from justice courts. In several counties the probation department collects graduated fines and submits such amounts to the clerk of the superior court. In 1982, the Legislature increased fees in the following sections of the statutes: A.R.S. §§7-103, 11-554, 12-311, 12-313, 12-407, 12-1705, 12-2107, 22-283, 25-303, 25-311.01, and 33-961.

Justices of the peace are empowered by A.R.S. §22-112 to set bail for traffic offenses and under A.R.S. §§22-281 and -282, to collect fees for civil actions in their court. Fees for small claims filings in justice courts are set by A.R.S. §22-522. Constables are entitled to collect fees in civil actions for serving summonses, levying and returning writs of attachment, and other services as provided by A.R.S. §11-445. A.R.S. §13-807 provides that all such amounts collected be remitted to the county treasurer. Municipal courts, pursuant to A.R.S. §22-424, may set bail for traffic offenses. Fines collected by municipal courts are remitted to the local municipality.

In addition to the courts' authority to collect the fines and fees noted above, the state legislature has mandated that surcharges be imposed for particular offenses to support special programs. During the first seven months of 1982 surcharges were collected in the following manner: (1) The Peace Officers' Training Fund (A.R.S. §§41-1825 and -1826) was supported by a 10% surcharge which was added to fines for all criminal convictions including violations of the Uniform Narcotic Drug Act, the Criminal Code Title 13, the Motor Vehicle Code Title 28, Game and Fish Title 17, and municipal motor vehicle ordinances. The minimum surcharge assessed in each fine was set at $2. (2) The Prosecuting Attorneys' Advisory Council Training Fund was supported by a 2% surcharge on all criminal offenses as provided by A.R.S. §41-1830.04. The minimum surcharge which could have been assessed was $1. (3) A.R.S. §36-142 prescribed that driving while intoxicated and Uniform Narcotic Drug Act convictions were also assessed an additional 15% surcharge for operation of drug and alcohol abuse programs by the Department of Health Services.

The 1982 Legislature changed this surcharge structure. House Bill 2488 provided for the creation of the Criminal Justice Enhancement Fund. This legislation eliminated the former surcharge structure and substituted a 37% penalty assessment "on every fine, penalty and forfeiture imposed and collected by the courts for criminal offenses." This penalty assessment is collected by the state and distributed pursuant to statute to the Peace Officers' Training Fund, Prosecuting Attorney's Advisory Council, Department of Health Services, Department of Public Safety, Department of Law, Department of Corrections, Arizona Criminal Justice Commission, and the Supreme Court. The portion received by the Supreme Court is to be used for reducing juvenile crime and the appointment of judges pro tempore in the superior courts.

By statute, all surcharges are to be remitted to the respective county or city treasurer who in turn forwards the funds to the state treasurer.
